

## LE Series

The LE Series Islands offer an elegant yet affordable solution for those who demand outdoor grilling excellence. We offer seven porcelain counter top designs to accompany the standard LE base and our economical LE 35J. These islands can be customized with a choice of grill sizes, features, accessories plus a variety of tile and stucco colors (some restrictions apply- see model for detail). An upgrade of Natural Stone is offered in two granite border tiles and two field choices. The LE Series unique size and removable counter top allows for ease in delivery to areas with limited access.
